Version	1.4
Effective date	January 1, 2026
Policy owner	People Operations
Applies to	All new employees, their managers and onboarding buddies
Next review	December 2026

FICTIONAL DEMONSTRATION POLICY. This document was created for the OnboardIQ college project demo. OnboardIQ Technologies is a fictional company; this is not a real company policy and must not be relied on.

Purpose

This policy describes what new employees need to do before and after joining OnboardIQ Technologies. Each step matches a task in the new hire's OnboardIQ onboarding checklist.

1. Before your first day: required documents

Sign your offer letter and non-disclosure agreement (NDA) at least five (5) days before your start date.

At least three (3) days before your start date, upload the following in the HR portal:

- A government-issued photo identity document (such as a passport or national ID card).
- Proof of current address.
- Highest education certificate.
- Relieving letter or experience letter from your previous employer, if applicable.

Also complete your personal information form and submit your tax declaration form at least three (3) days before you start, and set up your payroll (salary bank account) information at least one (1) day before you start.

2. First-day checklist

- Report to the reception desk at 9:30 AM on your first day. Your manager or onboarding buddy will meet you.
- Collect your ID badge and company laptop.
- Complete IT setup on day one: sign in to your laptop, email and chat with the IT service desk.
- Meet your manager to review your role and your first week.

3. Orientation schedule

When	Activity
Day 1	Welcome, IT setup, badge and laptop collection
Day 2	HR orientation (4 hours): company overview, policies, benefits and payroll
Day 2	Configure VPN and multi-factor authentication
Day 3	Meet your onboarding buddy
Within 3 days	Review company policies and submit emergency contact details
Within 7 days	Complete Information Security training
Within 8 days	Enroll in the health insurance plan
Within 9 days	Acknowledge the Leave and Attendance Policy
Within 12 days	Complete the POSH (anti-sexual harassment) awareness module
Within 18 days	Set 30-day goals with your manager

Every new employee is assigned an onboarding buddy from their team for the first ninety (90) days.

4. IT access

Your email, chat and HR portal accounts are created before your first day. Your temporary password is shared by SMS and must be changed at first sign-in.

Multi-factor authentication and VPN must be configured by the end of day two (2). Access to business applications is granted only after this is done.

Additional system access is requested by your manager through the IT service desk and is usually granted within one (1) working day.

Administrator rights on laptops are not granted by default. See the IT and Information Security Policy (OIQ-IT-SEC-006) for password and device rules.

5. Training requirements

- Information Security training: mandatory, about 90 minutes, to be completed within the first seven (7) days. The pass mark for the final quiz is 80%.
- POSH awareness module: mandatory, to be completed within the first twelve (12) days.
- Role-specific training is assigned by your manager in the learning portal during your first month.
- Engineering employees complete their first code review cycle within about six weeks of joining.

6. Probation

New employees serve a probation period of ninety (90) days. Submit your probation self-assessment in the HR portal at the end of the probation period.

Your manager completes the probation review within ten (10) working days of the self-assessment, and People Operations issues a confirmation letter once probation is completed successfully.

Fictional content for the OnboardIQ demo. Not real company policy.
